## Ultra Low Bandwidth, Wi-Fi Wireless *Boundless Security System™* at Self-Storage Facility Avoids Cables Between Buildings and Provides Viewing and PTZ Control on Handhelds at 15 fps

Mobile forces near and far view live or recorded video selected by Dispatcher on Pocket PC 6700 and Palm Treo 900W. PTZ cameras can be controlled, and video can be seen, without any special software on handhelds.

1. Boundless' ultra low bandwidth, advanced IP-based, *Multi-Stream Video Server* (located indoors), provides bandwidth-saving video-on-demand with multiple different streams per camera, continuous internal recording, motion searching, and IP-PTZ control
2. PC with Boundless' *Control Panel* client software provides mobile viewing and full access to live / recorded video, searching...
3. PC with Boundless' *Broadcast Control Panel* client software provides video for handhelds with Windows Media Player
4. 802.11g Wi-Fi wireless mesh node for onsite communication; video bandwidth is on-demand and typ. less than 1 Mbps (total)
5. 802.11g Wi-Fi wireless mesh node with connection to Internet, standard cable modem or DSL connections can be used
6. Fixed or PTZ CCTV camera (or Sony SNC-RZ30N) in outdoor housing; CCTV PTZ cameras use RS485 and Pelco-D protocols
7. Camera power supply and un-interruptable power supply (located indoors; not shown)

Sept. 6, 2007. Graphical representation only. Not an actual installation.
